1) The Cobol program MainPublishers.Cbl needs the following archives to run properly:
   - LDF.DAT
   - LDF.DAT.1
   - LIBRARY.DAT
   - LIBRARY.DAT.1
   - LIBRARY.DAT.2
   - PUBLISHER.DAT

2) Once you run MainPublishers.Cbl, it will create the Report MainPublishers.rpt which presents the most popular Books, their average earnings and more. All of these from the top Publishers'* inventory. See this report below.

```
               MAIN PUBLISHERS REPORT
               ----------------------

PUBLISHERS        ALL EARNINGS    BOOK TITLE                 AVERAGE

ThomsonReuters    $1,695.00       To Kill a Mockingbird      $215.50

Pearson           $1,152.50       Catch-22                   $230.50

Macmillan         $1,139.00       Lord of the Flies          $134.13
```

*From all the Publishers, only a selected few are presented.

3) This program also presents a series of "Displays" with the following information:

```
Lord of the Flies          AVERAGE        =    134.13
                           ALL EARNINGS   =    536.50

Ulysses                    AVERAGE        =    125.38
                           ALL EARNINGS   =    501.50

Don Quixote                AVERAGE        =     50.50
                           ALL EARNINGS   =    101.00

        EARNINGS OF PUBLISHER 01  1,139.00
```
